

Marcos Vilasboa

Full Stack Software Engineer

Hartsdale, NY | 914.433.8671 | vinnycesca@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

My passion is being led by clarity and creativity which then brings me around the right community and culture. As a trained health coach and sales consultant, I bring an analytical mind to help lead, assist and problem solve in both data and user experience!

- **Skills** Programming Languages: JavaScript, HTML5, CSS3, Python
- Frameworks: Node, Express, React, Mongoose, Flask
- Databases: MongoDB, SQL, Sequelize
- Tools: GitHub, Git

RELEVANT EXPERIENCE

Software Engineering Immersive | General Assembly | Remote | April - July 2021

Successfully completed 500+ hours of expert led instruction **full-stack software engineering** and hands-on learning of JavaScript and multiple framework fundamentals and the industry's most in demand technologies. Developed projects, including:

- "We're Not Really Strangers" : (online version of card game) built with javascript, HTML5, CSS
- "[Power List](#)": Place to add your favorite 5 movies. Built with express and axios!
- "[FakeX](#) " : A full MERN stack SpaceX Fan based app where it displays info from crew members, satellites, rockets with real time Starklink Location and heigh based on SPACEX API rendered on a globe.
- "[FAKEFLIX](#)": Top 100 IMDB movies of all time in one place. Where the user can LOGIN/SIGNUP and add their favorite movies while still choosing movies to add to watch list to one day say they watched all 100 movies.
